

Make learning fun

Children learn best during play when the learning experience is exciting and interesting for them.

Fun learning tips

- **Set aside some time.** As little as 5 minutes can make a difference.
- **Take time to play with your child, focusing on activities that they enjoy.** If the activity is enjoyable for them, they will be more likely to want to play and interact with you.
- **Follow your child's lead:** Look at what they are interested in and show that you are also interested in that item or activity. If they are losing interest, move on with them or take a break.
- **Use lots of facial expressions and make your voice sound excited!**
- **Be face to face with your child.** Don't be afraid to get down on the floor with them.
- **Remember to Watch, Wait, Listen.**
- **Relax and have fun!**

Try these at home

- **Spend time observing your child.**
- **What activities/toys do they like?** What do they go to first?
- Try to come up with a **list of activities** that they find highly motivating and engaging.
- **Limit distractions at home.** For example turn off television and radio.

When will you try it?
